

CONTENTS

VOLUME 5, ISSUE No. 1

March 1987

RESEARCH PAPERS

- Acute Phase Proteins as Disease Markers *I. Kushner and A. Mackiewicz* . . . 1
- Trisomy 22: Report of a Patient Diagnosed as a Neonate *K. Vohra, R. Verma and L. Concepcion* . . . 13
- The Relative Abundances of Specific RNA Sequences can be used to Classify the Myeloid Leukaemias *K. I. Mills, V. A. Anderson, J. H. Burns and G. D. Birnie* 19
- Cell-Mediated Immunological Status and Association of Genetic Markers in Hereditary Cerebellar Ataxia *D. Kumar, S. Papiha and K. Gelsthorpe* . . . 31
- MHC Supratypes as Markers of Null and Defective C4 Alleles in a Thai/Chinese Population: Relevance to Disease Susceptibility *P. H. Kay, G. Grimsley, R. L. Dawkins and P. Charoenwong* . . . 43
- Serum Enzyme and Ferritin Concentrations in Acute Leukaemia *A. N. Stark, K. Gailor, P. I. Langdale, B. E. Roberts and C. S. Scott* . . . 49

COMMENTARIES

- Significant Progress in Duchenne Muscular Dystrophy *K. E. Davies* . . . 55
- Novel Approaches for Cloning Human Genes: The Chronic Granulomatous Disease (CGD) *B. Royer-Pokora* . . . 57
- The Cystic Fibrosis Locus: A Progress Report *R. Williamson* . . . 59

BOOK REVIEWS . . . 65

VOLUME 5, ISSUE No. 2

June 1987

RESEARCH PAPERS

- Tumor Antigen TA-4: An Aid in Detecting Post-operative Recurrences of Esophageal Carcinoma *K. Sugimachi, M. Kitamura, H. Matsuda and Y. Okudaira* . . . 67
- Elevated Serum Alpha Fetoprotein Levels in Postmenopausal Women with Primary Breast Carcinoma *E. J. Sarcione and W. Biddle* . . . 75
- C3 Alleles in Diseases Associated with C3 Activation *T. R. Welch and A. Berry* . . . 81
- HLA Associations with Multiple Sclerosis in Sicily and Malta *M. Elia, A. Alonso, J. Awad, G. Dean, R. Okoye, J. Sachs, G. Savettieri, L. Vassallo and H. Festenstein* . . . 89
- HLA-DR and -DQ DNA Genotyping in Insulin-dependent Diabetes Patients in South India *S. W. Serjeantson, P. R. Ranford, R. L. Kirk, M. R. J. Kohonen-Corish, V. Mohan, A. Ramachandran, C. Snehalatha and M. Viswanathan* . . 101

DR β TAQ I Restriction Fragment Length Polymorphism (RFLP) Associated with Insulin Dependent Diabetes Mellitus (IDDM) <i>T. W. Hodge, B. O. Barger and R. T. Acton</i>	109
AIDS MEDICAL UPDATE	
Special Edition: Pediatric AIDS	119
BOOK REVIEWS	125

VOLUME 5, ISSUE No. 3

September 1987

REVIEW ARTICLES

Immunodeficiency Disease Genes on the X Chromosome <i>E. J. B. M. Mensink and R. K. B. Schuurman</i>	129
Genetic Markers for Assessment of Retinoblastoma Predisposition <i>J. A. Buchanan and W. K. Cavenee</i>	141

RESEARCH PAPERS

Insulin-dependent Diabetes Mellitus: HLA-DR and -DQ Genotyping in Three Ethnic Groups <i>M. R. J. Kohonen-Corish, S. W. Serjeantson, H. K. Lee and P. Zimmet</i>	153
HLA Associations in an Arab Type 1 Diabetic Population <i>K. Behbehani, E. R. Richens, N. Abdella, A. K. Jayyab, A. Shaltout, M. Al-Saffar and R. Siboo</i>	165
Polymorphism of Human Immunoglobulin V _H Genes: A Possible Marker of Autoimmune Disease <i>G. Rechavi, D. Givol and D. Geltner</i>	171
Presumptive Evidence for an Immunosuppressor Susceptibility Gene, Linked to HLA, in Rheumatic Fever <i>M. Hafez, F. El-Shennawy, M. El-Ziny, S. Abo-El-Hasan and M. Khashaba</i>	177

SHORT COMMUNICATION

Evidence for a Protective Influence of Blood Group A Phenotype on X-Ray Signs of Ankylosing Spondylitis in HLA-B27 Positives <i>K. Bauer</i>	187

VOLUME 5, ISSUE No. 4

December 1987

MHC-Linked Genetic Factors (HLA-B35) Influencing Recurrent Circumoral Herpetic Lesions <i>G. Gallina, V. Cumbo, P. Messina, M. A. Modica and C. Caruso</i>	191
DQ β Restriction Fragment Length Polymorphism and its Relationship to Insulin Dependent Diabetes Mellitus <i>J. A. Sachs, P. G. Cassell, H. Festenstein, J. Awad and G. A. Hitman</i>	199
Genetic Linkage Studies of Ataxia-Telangiectasia: Phenotypic Blood Markers <i>R. A. Gatti, R. C. Davis, D. E. Weeks, N. J. G. Jaspers, R. S. Sparkes and K. Lange</i>	207

Characterization of Monoclonal Antibodies to the Human Myeloid-Differentiation Antigen, 'gp67' (CD-33) <i>E. J. Favaloro, K. F. Bradstock, A. Kabral, P. Grimsley and M. C. Berndt</i>	215
Markers of Differentiated B Cell Leukaemia: CD22 Antibodies and FMC7 React with Different Molecules <i>H. Zola, S. H. Neoh, A. Potter, J. V. Melo, M. S. P. De Oliveria and D. Catovsky</i>	227
The Human Chorionic Gonadotrophin Alpha Subunit Gene in Gestational Trophoblastic Disease. 1. Restriction Fragment Length Polymorphisms in Hydatidiform Moles <i>R. A. Fisher, S. Povey, S. D. Lawler, C. A. Martin and D. Abeliovich</i>	237
